

ARK-900**Auto RefKeratometer****ARK-900****FEATURES:**

- ① 6.5" touch screen control panel for easy operation.
- ② Joystick movement assisted by the motor for the ease of up and down elevation.
- ③ 90 degree foldable control panel for different angel of view.
- ④ Rotary prism technology guarantees accuracy of test result.
- ⑤ Motorized chin rest
- ⑥ Automatic paper cutting.
- ⑦ Auto focus, auto eye tracking.
- ⑧ Switch between manual capture and auto capture is available.

**PERFORMANCE FEATURE:**

Vertex distance	0, 12.0, 13.75, 15.00mm
Spherical degree measurement range	-25.00D ~ +25.00D
Column mirror measurement range	-10D ~ +10D
Axis measurement range	0° ~ 180°
Interpupillary distance measurement range	10mm ~ 85mm
Minimum measurement pupil diameter	φ2.0mm
Radius of curvature measurement range	5mm-10mm
The measurement range of principal meridian axis of corneal curvature	0° ~ 180°
Corneal diameter measurement range	2.0mm-12.0mm
Display	6.5 inch LCD display
Printer	Built-in imported thermal printer
Power saving mode	1/5/10/20/40 minutes no operation
Power supply	~ 220V 50Hz 75VA
Size/Weight	255mm(W)*490mm(D)*460-490mm(H)/18kg
